**CALL REGARDING 2025+
MODEL YEARS**

DEFINITIONS, TERMS & CONDITIONS

EFFECTIVE DATE 06/11/25

PROCHARGER COMPLETE SYSTEMS

- ProCharger systems are sold 100% complete unless noted otherwise.
- High Output (HO) Intercooled Systems are designed for operation on vehicles with stock engines and stock exhaust.
- Stage II Intercooled Systems are designed to accommodate higher power levels, but tuning is provided for stock vehicles only.
- Tuning is available for Systems only, and only for vehicles with stock engines with stock exhaust, as well as most "cat-back" exhaust systems.
- Boost level and performance may change based on elevation.
- Complete systems with tuning require a minimum of US 91 octane gas.
- All engine and exhaust modifications must be noted at time of order. ProCharger is not responsible for boost levels or tuning for modified applications.
- Vehicles built for export and other non-US spec vehicles may require custom tuning/calibrations.
- ProCharger systems for stock vehicles are emissions legal in all 50 states where noted in the "CARB EO" column in the product specs. For compliance information, visit www.arb.ca.gov
- Due to variability among OEM computers, the prevalence of custom modifications, and age/miles/condition of vehicles, dyno tuning may be required; stock vehicles with cat-back exhaust systems may require custom tuning.

PROCHARGER TUNER KITS

- ProCharger Tuner Kits exclude fuel components and computer programming, but are otherwise identical to complete systems.
- HO Intercooled Tuner Kits are designed for stock and modified vehicles.
- Stage II Intercooled Tuner Kits accommodate higher power levels, and are designed for both stock and modified vehicles.
- Race kits and components are intended for off-road/racing use only and may require modifications, trimming, and/or additional components.
- Tuner kits are intended to be dyno-tuned by professional tuners/installers with custom programming.

GENERAL INFORMATION

- You must list Minimum Advertised Pricing (MAP) equal to PRICE as displayed throughout this price guide. MAP = PRICE
- All prices and specifications are subject to change without prior notification. The most recently printed price guide supersedes all previous statements of product specifications and/or pricing.
- Payment is required in advance before product may be shipped. ATI accepts payment in the form of credit card (USA only), cashier's check, certified check, wire transfers or money order. Payments made by company check, cashier's check, certified check or money order may cause shipping delays while check clears, unless prior arrangements have been made with ATI.
- All products are shipped F.O.B. Accessible Technologies, Inc., Lenexa, KS. Standard shipping is via Federal Express Ground unless prior arrangements have been made with ATI.
- A drop shipment fee will apply to all system, kit and head unit orders not shipped to the purchasing dealer. \$35 for systems and kit orders, \$25 for head unit orders.
- Customer is responsible for all duties, customs, fees and shipping charges required to get product to its destination. Export shipping must be arranged in advance with ATI. All payments on export orders must be made in U.S. funds via wire transfer.
- Drop ship orders may be subject to local sales tax requirements.
- Estimated shipping dates can be obtained from ATI sales or customer service (dates are estimated and not guaranteed).
- All packed orders not shipped within 30 days will be returned to inventory and subject to a 5% restocking fee.
- Inspection of product should occur immediately upon arrival. Any claims of shortages or errors originating at ATI must be made within 5 business days from the date of receipt. Damage to product or packaging must be claimed in accordance with the carrier's policies.
- CARB EO's are applicable at time of purchase and are not retroactive. Only systems with an EO# meet emission requirements for all 50 states and are legal for street use on OEM vehicles only (stock engine, stock exhaust, etc).
- F-Series superchargers may require bellmouth or custom air inlet.
- Model years listed in App guide may not be available at time of print. Call for more details.
- All i-1 systems and all special order systems/kits require non-refundable deposit. See footnotes.

WARRANTY INFORMATION

- 12-month warranty on new, serpentine head unit purchases. Warranty does not cover owner misuse or neglect.
- 36-month head unit only warranty option is available on new, complete systems with P-series & D-1SC head units.
- Limited warranty on cog drive, gear drive or race head unit purchases. Limited means free of manufacturing defects upon receipt.
- 90-day limited warranty on serpentine head unit upgrades.
- 30-day limited warranty on serpentine head unit rebuilds/repairs.
- Exceeding the published supercharger RPM, failure to follow service procedures, or using improper supercharger orientation will void the warranty. The ProCharger warranty applies to original purchaser only and is non-transferrable.
- Failure to use ProCharger specified oil in head units and drives will void ProCharger manufacturer warranty.
- 90-day limited warranty on components purchased separately (excludes electrical and fuel components).
- 30-day limited warranty on electrical components and fuel components.
- 3-year limited warranty on new air-to-air intercoolers.
- 1-year limited warranty on new air-to-water intercoolers.
- Wastegates, methanol injection kits, aftermarket intakes, etc may cause damage to supercharger, intercooler, or intake that will not be covered under warranty.

RETURNS

- Returns of new, unused product must be pre-approved by ATI/ProCharger. A 20% restocking fee will apply to part orders and head units, and a 12.5% restocking fee will apply to supercharger systems/kits.
- Supercharger systems/kits returned with the factory seal intact are subject to a restocking fee of 10%. No C.O.D or Freight Collect shipments will be accepted by ATI. Used, damaged, special order or discontinued items may not be returned.
- An RMA (Returned Merchandise Authorization) number must be assigned by ATI for all returns and must be displayed in clear view on the outside of the package and be contained in all correspondence.
- No returns are accepted after 90 days. Returns for electrical and fuel components are limited to 30 days.

FORD AUTOMOTIVE FOOTNOTES (specific to above applications):

- C1) Model year must be specified
- C2) Due to variability among OEM computers, the prevalence of custom modifications, and age/miles/condition of vehicles, dyno tuning may be required
- C3) Modified engines only
- C4) System ships in extra large box
- C5) 2012 Stage II Systems require trimming of plastic bumper cover (behind bumper, not visible)
- C6) Specify factory or aftermarket balancer
- C7) Mustang ATI Balancer #918047 required for 12-rib upgrade and Cog Kits
- C8) ProCharger tune overrides Ford TrackKey/Boss 302 performance calibrations
- C9) ECM code required
- C10) Two-part shipment, additional shipping charges may apply
- C11) Special order kit: order form and non-refundable deposit required at time of order—may require additional lead time for processing

FORD AUTOMOTIVE FOOTNOTES (specific to above applications):

- F1) Model year must be specified
- F2) Due to variability among OEM computers, the prevalence of custom modifications, and age/miles/condition of vehicles, dyno tuning may be required
- F3) HO Systems and Tuner Kits for 1996-01 Cobras require a cut-down impeller, which limits max boost to 8 psi on stock motors
- F4) 1999-01 model years with over 10 psi boost require Ford Lightning (flange-style) MAF (not supplied)
- F5) 30 lb/hr fuel injectors required (not supplied)
- F6) Modified motors only
- F7) May require cooling system and air conditioning system modifications
- F8) ATI Performance Products aftermarket balancer required, part #918036 (not included - specify hardened hub)
- F9) Battery relocation required (trunk relocation kit supplied)
- F10) Special order kit: order form and non-refundable deposit required at time of order—may require additional lead time for processing

FORD AUTOMOTIVE FOOTNOTES (specific to above applications):

- G1) Model year must be specified
- G2) Standard ProCharger bracket requires factory a/c and p/s
- G3) Specify stock or bullet-style MAF flange
- G4) Battery relocation required (trunk relocation kit supplied)
- G5) Cobra balancer must be replaced with GT balancer, Ford part #F4ZZ6A312A (not supplied)
- G6) GT models can have either vertical or horizontal intercooler mounting; horizontal intercooler or Twin Highflow mounting recommended for LX models; vertical mounting possible with modifications; vertical mounting or Twin Highflow recommended for all lowered vehicles.
- G7) Inner fender modification may be required
- G8) Specify stock or cowl hood (additional charge for stock hood—requires alternate tubing)
- G9) For speed density models (most 1986-88) MAF conversion is recommended (not supplied)
- G10) Special order kit: order form and non-refundable deposit required at time of order—may require additional lead time for processing
- G11) 12-rib kits may require modifications/trimming.
- G12) Non A/C vehicles require power steering relocation kit (AB003A-010)

1964.5-66	1FX400-P1SC-I	specify	3"	Standard	add'l 8 rib	ProFlow	Optional	Optional	Yes	12	H8, H9, H10

Call for '69-73 Mustang, '66-73 Fairlane, Maverick, Comet, Falcon, Torino.

FORD AUTOMOTIVE FOOTNOTES (specific to above applications):

- H1) Carbureted systems require Holley 4150 series or similar blow-through carburetor (sold separately by others) and fuel system upgrade (sold separately by ProCharger and others)
- H2) Specify Universal or Fox Body intercooler kit and tubing
- H3) Universal intercooler tubing kit, not designed for a specific vehicle
- H4) ProCharger pulleys do not line up with factory (OEM) 6-rib accessory pulleys—realignment of factory accessories is required
- H5) Specify engine deck height
- H6) Specify Windsor or Yates cylinder heads
- H7) Specify with or without P/S; does not work with A/C
- H8) Factory balancer required
- H9) Alternator bracket option requires 1986-93 Fox Body alternator
- H10) Power steering pump bracket option requires 1986-93 Fox Body p/s pump

CHEVROLET AUTOMOTIVE FOOTNOTES (specific to above applications):

- KK1) Does not fit convertible
- KK2) Dyno tuning is required
- KK3) Clutch upgrade and/or controller may be required
- KK4) Multi-part shipment, additional shipping charges apply
- KK5) Model year, Base or Z51, and VIN # must be specified
- KK6) Carbon fiber trunk cover and manifold cover requires special order
- KK7) No cutting required, trunk carpet trimming recommended
- KK9) Port Injection Option requires LS3/60mm full length injectors, no fuel injector hats
- KK10) For race use only
- KK11) Includes all hardware for a stock engine, stock exhaust car only
- KK12) Stage II Tuner kit does not include necessary fuel system or timing components
- KK13) PCM removal and shipment required
- KK14) Specify base model or Z51 package

CHEVROLET AUTOMOTIVE FOOTNOTES (specific to above applications):

- K1) Model year and manual or automatic transmission must be specified
- K2) Satin finish is now standard for Corvette systems; polished finish and black finish is optional
- K3) Specify wet or dry oil sump
- K4) Due to variability among OEM computers, the prevalence of custom modifications, and age/miles/condition of vehicles, dyno tuning may be required
- K5) System ships in extra large box
- K6) Specify stock or aftermarket balancer (AT1 Balancer Part Numbers: LT1 Dry #917315, LT1 Wet #917314, Z06 LT4 #917315; specify hardend hub)
- K7) Vertical intercooler recommended for drag racing use
- K8) Horizontal intercooler only available for 2014 Corvette C7's (LT1)
- K9) F-1X supercharger upgrade requires modifications
- K10) Two-part shipment, additional shipping charges may apply
- K11) Works with maximum of 10% overdrive crank pulley
- K12) Ice-tank mount welding, wiring, sway bar removal, vehicle trimming and modifications required
- K13) Port injection Option requires LS3/38mm length injectors
- K14) Special order kit: order form and non-refundable deposit required at time of order—may require additional lead time for processing

CHEVROLET AUTOMOTIVE FOOTNOTES (specific to above applications):

- L1) Model year and manual or automatic transmission must be specified
- L2) Satin finish is now standard for Corvette systems; polished finish and black finish is optional
- L3) Specify wet or dry oil sump
- L4) Due to variability among OEM computers, the prevalence of custom modifications, and age/miles/condition of vehicles, dyno tuning may be required
- L5) 8-rib drive system upgrade is available for 2005-13 C6 and Grand Sport Stage II Systems/Tuner Kits and requires ATI PP balancer #917345 (LS3/LS2, wet sump) or #918620 (LS7/GS, dry sump) (not supplied), or Innovator's West balancer #843 (LS3/LS2, wet sump) or #853 (LS7/GS, dry sump) (not included - specify hardened hub)
- L6) 2009-13 models require water pump modification (water pump available from ProCharger)
- L7) Requires 10-rib ATI PP balancer #917347X (LS3/LS2, wet sump) (not supplied), or Innovator's West balancer #844 (LS3/LS2, wet sump) or #854 (LS7/GS, dry sump) (not included - specify hardened hub)
- L8) System ships in extra large box
- L9) Grand Sport Corvette applications must be noted at time of order, including body style
- L10) Race intercooler option requires oil cooler relocation (not supplied)
- L11) Specify stock or aftermarket balancer
- L12) Two-part shipment, additional shipping charges may apply
- L13) Special order kit: order form and non-refundable deposit required at time of order—may require additional lead time for processing

CHEVROLET AUTOMOTIVE FOOTNOTES (specific to above applications):

- N1) Model year must be specified
- N2) Due to variability among OEM computers, the prevalence of custom modifications, and age/miles/condition of vehicles, dyno tuning may be required
- N3) System ships in extra large box
- N4) Race intercooler upgrades requires trimming and removal of driver-side radiator
- N5) Specify stock or aftermarket balancer
- N6) Inner fender modifications required for F-1C and F-1R head units
- N7) Inner bumper support modification or removal required for Race and Air-to-Water intercoolers
- N8) Requires ATI PP balancer #918856 (not included - specify hardened hub)
- N9) Works with maximum of 10% overdrive crank pulley
- N10) Factory balancer only

	3GKMM-004	Crank Pin Kit	-	-	-	+\$109

1993-97 CAMARO/FIREBIRD (LT1) SYSTEMS AND KITS

Year	Part Number	Description	Boost Options	HP Gain	Intercooler	Price/MAP
1993-97	1GA211-071 / 09I	High Output Intercooled System with P-1SC	7, 9 psi	55-60%	2 core	\$6,799
1993-97	1GA201-SCI	High Output Intercooled Tuner Kit with P-1SC	specify	specify	2 core	\$6,499
1993-97	1GA212-D1SC	Intercooled Serpentine Race Kit with D-1SC (12 rib)	specify	specify	twin highflow	\$7,399

1993-97 CAMARO AND FIREBIRD (LT1) OPTIONS	add "B" or "P" to part #	Black or Polished finish for ProCharger (P-series or D-series)	satin standard	-	-	+\$325
	add "I" to part #	Polished finish for intake tract	satin standard	-	-	+\$175
	add "H" to part #	Helical gearset for noise reduction (P-1SC, D-1SC)	same	same	-	+\$110
	add "D1SC" to part #	With D-1SC ProCharger (replacing P-1SC)	HO kit only	specify	-	+\$495
	add "D" or "-1" or "-A"	With F-1D, F-1, F-1A ProCharger (replacing D-1SC, Serp Race Kit only)	Race kit only	specify	-	+\$599
	add "RVR" or "RVB"	Race Bypass Valve Upgrade (specify open or closed valve; red or black)	from ProFlow	specify	-	+\$295
	add "THF" to part #	Twin Highflow intercooler upgrade	from 2 core	-	750 hp max	+\$495
OPTIONS	MA0011-001	Mass Airflow Massager (required for 96-97 only)	-	-	-	+\$249

1987-92 CAMARO/FIREBIRD TPI (L98) SYSTEMS AND KITS

Year	Part Number	Description	Boost Options	HP Gain	Intercooler	Price/MAP
1987*-92	1GC211-09I	High Output Intercooled System with P-1SC	9 psi	65%	2 core	\$5,999
1987*-92	1GC201-SCI	High Output Intercooled Tuner Kit with P-1SC	specify	specify	2 core	\$5,749
1987*-92	1GC201-D1SC	Stage II Intercooled Tuner Kit with D-1SC	specify	specify	3 core	\$6,499

1987-92 CAMARO, FIREBIRD (L98) OPTIONS	add "B" or "P" to part #	Black or Polished finish for ProCharger (P-series or D-series)	satin standard	-	-	+\$325
	add "H" to part #	Helical gearset for noise reduction (P-1SC, D-1SC)	same	same	-	+\$110
	add "D1SC" to part #	With D-1SC ProCharger (replacing P-1SC)	specify	specify	-	+\$495
	add "3C" to part #	3 core intercooler upgrade	from 2 core	-	825 hp max	+\$435
	add "OF" to part #	Omit FMU (Stage II)	-	-	-	-\$88
	add "OP" to part #	Omit in-line fuel pump (Stage II)	-	-	-	-\$98

* 1987 model years require Serpentine Accessory Belt Drive System, GM Part #12497698

CHEVROLET/PONTIAC AUTOMOTIVE FOOTNOTES (specific to above applications):

- P1) Model year must be specified
- P2) Mass airflow massager required for '96-97 LT1's (sold separately by ProCharger)
- P3) LT1 F-bodies with traction control will require custom relocation of that module
- P4) 1993 LT1 F-bodies require the purchase of larger fuel injectors or an ignition retard system (sold separately by others)
- P5) May not accommodate all aftermarket balancers
- P6) Modified engines only
- P8) D-1SC, F-1, F-1A modified engines only (air inlet may require modification)
- P9) Pinning the balancer to the crank is recommended; Pin kit for stock balancer not supplied
- P10) Purchase of specific aftermarket harmonic balancer required for 8 rib and 10 rib upgrade, modifications required (ATI PP part #918853) (not included - specify hardened hub)
- P11) Crank pinning is recommended for higher horsepower applications
- P12) 1987 model years require Serpentine Accessory Belt Drive System, GM Part # 12497698
- P13) Race intercooler upgrade requires front bumper modification and requires system to ship in extra large box
- P14) F-series head unit upgrades may require minor modifications
- P16) Special order kit: order form and non-refundable deposit required at time of order—may require additional lead time for processing
- P17) Sway bar spacing may be required

CHEVROLET/PONTIAC AUTOMOTIVE FOOTNOTES (specific to above applications):

- Q1) Model year must be specified
- Q2) Pinning the balancer to the crank is recommended; Pin kit for stock balancer is supplied
- Q3) Due to variability among OEM computers, the prevalence of custom modifications, and age/miles/condition of vehicles, dyno tuning may be required
- Q4) Specify stock or aftermarket balancer, and stock or overdrive diameter crank pulley (if aftermarket balancer, requires ATI PP part #918853, not included - specify hardened hub)
- Q5) May require transmission cooling line modification
- Q6) System ships in extra large box
- Q7) 2009 G8 requires GM balancer part # 12674582
- Q8) Requires modification of front bumper (GTO race intercooler only)
- Q9) Requires modifications for 3 core upgrade
- Q10) Race intercooler recommended above 600 HP
- Q11) Complete systems are compatible with G8 GT models only
- Q12) Tuner Kits are compatible with G8 GT models, and GXP models with modifications

LS ENGINE SWAP FOOTNOTES (specific to above applications):

- LL1) Requires Innovators West P/N 844-10-rib or 843-8-rib, or ATI Performance Products Balancer p/n 917345 (8-rib) and p/n 917347X (10-rib)
- LL2) Pinning crank pulley is recommended
- LL3) Can be ordered without a/c.
- LL4) Can be ordered without power steering
- LL5) Not available for LS7
- LL6) Not tall deck compatible
- LL7) Not compatible with VVT

COMPATIBLE GM ACCESSORIES

Description	Part #	Manufacturer/Notes
Power Steering Pump	6175AL	Tuff Stuff (or equivalent), GM Type 2
Alternator	20881337	GM, 2007-2013
A/C Compressor	SD-7B10	Sanden, 6-rib
Reservoir	6175ARES	Required
Water Pump (supplied)

COMPATIBLE GM ACCESSORIES

Description	GM Part #	OEM Vehicle Source
Power Steering Pump	21997867	2004-2007 Cadillac CTS
Power Steering Pulley	12568997	2004-2007 Cadillac CTS
Alternator	19244751	1999-2013 GM Truck 4.8/5.3/6.0
A/C Compressor	92175482	1998-2002 LS1 F-Body
A/C Bracket	92066950	1998-2002 LS1 F-Body
A/C Belt	25-040430	Napa
A/C Belt Tensioner	12595289	---
Water Pump	89017593	1998-2002 LS1 F-Body

(Auto part stores can use these to cross reference other compatible brands)

LS ENGINE SWAP FOOTNOTES (specific to above applications):

- T1) Requires ATI Performance Products balancer (LS3/LS2/LS1 part #918853, LS7 part #918620) (not supplied - specify hardened hub)
- T2) Specify with or without power steering when using ProCharger Accessory Brackets
- T3) Pinning of the crank pulley is recommended
- T4) Compatible with mechanical or electric water pump
- T5) Designed to work with Muscle Rods motor mounts or comparable (application dependent, sold separately by others)
- T6) Not compatible with Corvette-style water pump
- T7) Specify iron block, aluminum block and tall deck
- T8) LS7 engine requires modifications (not supplied)
- T9) Not a direct bolt-on for VVT engines

PASSENGER SIDE LS/LT1/LT4 ENGINE SWAP FOOTNOTES (specific to above applications):

- U1) Comes with ProCharger 8-rib crank pulley, but is also compatible with ATI PP Super Damper (Part# 917314)
- U2) Works with OEM LT1 intake and ProCharger LT1/LT4 Sheet Metal Aluminum Intake Manifold
- U3) Uses all factory LT1 (Corvette) accessories
- U4) Factory power steering pump can be used with an attached fluid reservoir, remote reservoir recommended
- U5) Compatible with factory and most aftermarket A/C compressors
- U6) Specify LT1 or LT4 engine model
- U7) Specify wet or dry oil sump
- U8) 8-rib drive requires ATI PP bal #917345 (LSx, wet sump) or #918620 (LS7 dry sump - not supplied), or Innovator's West bal #843 (LS, wet sump) or #853 (LS7 dry sump) (not included - specify hardened hub)
- U9) Optional 10-rib requires ATI PP bal #917347X (LS, wet sump) (not supplied), or Innovator's West balancer #844 (LSx, wet sump) or #854 (LS7 dry sump) (not included - specify hardened hub)
- U10) May require water pump modification (optional water pump available from ProCharger)
- U11) LS passenger side uses common C6 Corvette accessories
- U12) Iron block requires drilling and tapping

SBC/BBC SERPENTINE BLOWER FOOTNOTES (specific to above applications):

- R1) Carbureted systems require 4150 style or similar blow-through carburetor or efi throttle body (sold separately by others) and fuel system upgrade (sold by ProCharger and others)
- R2) Must provide own P/S pump with remote reservoir, GM Type II Pump (both Serpentine and V-Groove)
- R3) Purchase of bypass valve recommended above 8 psi, or with intercooler (sold separately by ProCharger)
- R4) Universal Tubing Kit included, not designed for a specific vehicle
- R5) Cog may be required above 1,000 hp
- R6) A/C option on serpentine accessory drive requires Sanden A/C compressor 508/SD5H14 (sold separately by others)
- R7) V-Groove accessory drive requires standard rotation, long water pump (SB and BB)
Serpentine accessory drive requires reverse rotation water pump: SB requires 1984-91 Corvette reverse rotation water pump (sold separately by others),
BB requires reverse rotation BB water pump (Edelbrock part #8854, sold separately by others);
- R8) Alternator placement with serpentine accessory drive is not compatible with some aftermarket EFI systems; designed to work with Delco style alternator with 6.61" center to center mounting

* 130+ hp with 2009-10 5.7L VCT engines

DODGE/AUTOMOTIVE FOOTNOTES (specific to above applications):

- Y1) Model year must be specified
- Y2) Due to variability among OEM computers, the prevalence of custom modifications, and age/miles/condition of vehicles, dyno tuning may be required
- Y3) Specify engine size (5.7 or 6.1)
- Y4) Systems ship in extra large box
- Y5) Purchase of aftermarket balancer required (not included - specify hardened hub):
5.7 (2006-08) = ATI PP part #918435
6.1 = ATI PP part #918432
- Y6) 2WD models only; AWD models must use Tuner Kit and may require modifications
- Y7) Special order kit: order form and non-refundable deposit required at time of order—may require additional lead time for processing

CHEVY TRUCK/SUV FOOTNOTES (specific to above applications):

- CC1) Model year must be specified
- CC2) Specify 2WD or 4WD, Truck or SUV
- CC3) Specify engine size
- CC4) For Flex Fuel vehicles, gasoline-only tune provided, not E85
- CC5) Due to the wide variance of chassis and options available, modifications may be required
- CC6) Due to variability among OEM computers, the prevalence of custom modifications, and age/miles/condition of vehicles, dyno tuning may be required
- CC7) 2007 Classic use 1G1213-SCI (HO Intercooled System) or 1G1203-SCI (HO Intercooled Tuner Kit)
- CC8) HD models with Hydroboost may require modifications to power steering reservoir
- CC9) Pinning the balancer to the crank is recommended; Pin kit for stock balancer not supplied
- CC10) Specify stock or optional ATI Balancer #918635 (not included - specify hardened hub)
- CC11) Special order kit: order form and non-refundable deposit required at time of order—may require additional lead time for processing

FORD TRUCK/SUV FOOTNOTES (specific to above applications):

- ED1) Model year must be specified
- ED2) Specify 2WD or 4WD
- ED3) Due to variability among OEM computers, the prevalence of custom modifications, and age/miles/condition of vehicles, dyno tuning may be required
- ED4) For Flex Fuel vehicles, gasoline-only tune provided, not E85
- ED5) ECM code required on hand-held programmer applications
- ED6) System ships in extra large box
- ED7) 2015+ models require aerodynamic grill shutter removal and/or trimming
- ED8) Two-part shipment, additional shipping charges may apply
- ED9) Works with dual battery; dual alternator requires removing one alternator
- ED10) Special order kit: order form and non-refundable deposit required at time of order—may require additional lead time for processing

2011-14 FORD F-150 (5.0, 6.2 4V) SYSTEMS AND KITS

Year	Part Number	Description	Boost Options	HP Gain	Intercooler	Price/MAP

FORD TRUCK/SUV FOOTNOTES (specific to above applications):

- FF1) Model year must be specified
- FF2) Specify 2WD or 4WD, Truck or SUV
- FF3) Fits Light Duty F-250 applications with minor modifications
- FF4) 1997-98 Ford F-150/Expedition systems/kits include 2 core intercooler, 1999-03 include 3 core intercooler
- FF5) Due to variability among OEM computers, the prevalence of custom modifications, and age/miles/condition of vehicles, dyno tuning may be required

- FF6) For Flex Fuel vehicles, gasoline-only tune provided, not E85
- FF7) ECM code required on hand-held programmer applications
- FF8) System ships in extra large box
- FF9) Special order kit: order form and non-refundable deposit required at time of order—may require additional lead time for processing
- FF10) Two-part shipment, additional shipping charges may apply

- The stated figures are not absolutes, and may actually be higher depending upon the specific application.
- Figures based on stated peak airflows; actual power levels may be higher in well prepared engines.
- Please refer to www.procharger.com for additional supercharger specifications.

- Engine intake air temperature is the most relevant thermal measure (not SAE J1723) for a supercharger installed on a vehicle, especially when intercooled; SAE J1723 does not address the impact of engine dynamics, engine compartment heat transfer, intercooling or deficiencies caused by supercharger location.

• *Formerly F-1X-12

• F-1/F-2 superchargers are rated based upon high horsepower street engines. F-3 superchargers are rated based upon maximum effort race engines.

• The stated figures are not absolutes, and may actually be higher depending upon the specific application.

• Please refer to www.procharger.com for additional supercharger specifications.

• Figures based on stated peak airflows; actual power levels may be higher in well prepared engines.

• Engine intake air temperature is the most relevant thermal measure (not SAE J1723) for a supercharger installed on a vehicle, especially when intercooled; SAE J1723 does not address the impact of engine dynamics, engine compartment heat transfer, intercooling or deficiencies caused by supercharger location.
